DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: Applicant should provide the missing US serial number in paragraph 0002.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 8, 10-12, 14 and 15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 8, lines 6-7, the disclosure does not describe what constitutes a "predetermined function."

Claim 8, lines 6-7, it is not clear what is meant by "the reserved credit be utilized for a predetermined function if the shared VC buffer is used instead of the reserved credit" and where this is described in the disclosure.

Claim 11, lines 1-2, both "the predetermined function" and "performance critical use" is undefined in the disclosure. What is a "predetermined function" and what is a "performance critical use"?

Art Unit: 2616

Claim 12, lines 8-10, it is not clear what is meant by "the reserved credit be utilized for a predetermined function if the shared VC buffer is used instead of the reserved credit" and where this is described in the disclosure.

Claim 15, lines 1-2, both "the predetermined function" and "performance critical use" is undefined in the disclosure. What is a "predetermined function" and what is a "performance critical use"?

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 3, 4 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3, "the remaining buffers" lack a proper antecedent basis since the phrase has been changed in claim 1.

Claim 4 appears to have a grammatical error since in line 2 "...is blocked, link layer..." appears to be misplaced.

Claim 4, "the remaining link buffers" and "link units" lack a proper antecedent basis since the phrases have been changed in claim 1.

Claim 6, it is not clear what is meant by "the apparatus is a link layer."

Allowable Subject Matter

6. Claims 1, 2, 5, 7, 16 and 17 are allowed.

7. Claims 3, 4 and 6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
